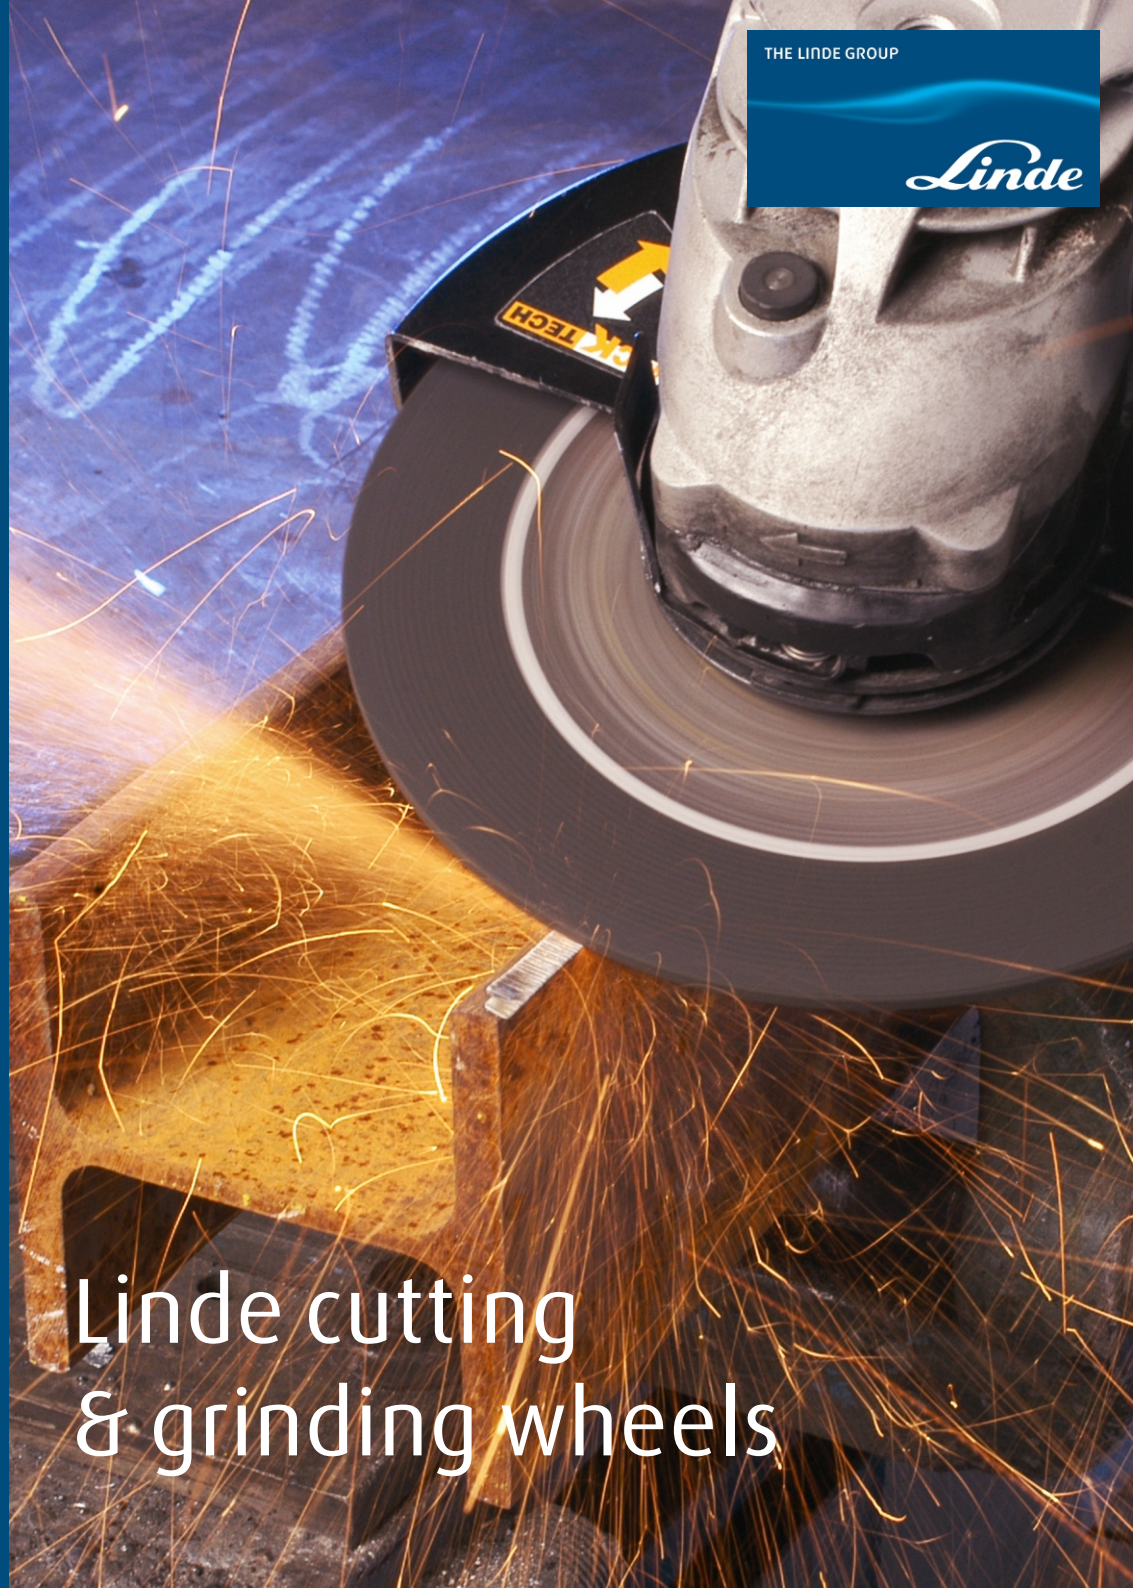
Linde Gas Adresses



THE LINDE GROUP

Linde

Linde cutting & grinding wheels

Linde cutting & grinding wheels. Maximizing productivity, without compromising performance and safety.

Linde is the leading supplier of gases, welding equipment and safety products. Our experts reliably deliver welding, trade tools and safety products to countless industries.

The Linde cutting &grinding wheels are a range of depressed-centre discs for metal, for use on portable machines. These discs meet the highest safety specifications and have earned a reputation for safety, quality and performance. They are used across a wide range of industries including manufacturing, shipbuilding, construction, automotive, foundries and aerospace.

All abrasives discs are developed, manufactured and safety-tested in accordance with the European Standard EN 12413 – safety requirements for bonded abrasive products. These products are manufactured by ISO – 9001 registered producer and are approved by the international Safety Standard oSa.

Grinding and cutting discs can be used in many applications, including structural steel, asphalt, roof tiles, concrete and clay bricks.

Linde is your solution provider. Linde brand products that exceed industry expectations.

Benefits:

- Smooth cutting and grinding results on ferrous metals
- Provides a fast cut rate
- Minimizes operator fatigue
- Decreases grinder/machine maintenance
- Innovative products that deliver enhanced wheel life
- Free abrasive assessment
- Product manufactured in ISO certified plants
- Call Linde about on-site safety audits
- Nationwide customer support for technical guidance and application expertise

Application pictograms

Steel

Stainless steel (Inox)

Safety pictograms

Wear ear protection

Wear eye protection

Wear a dust mask

Wear gloves

Read the instructions

Free of iron, sulphur and chlorine

Do not use a damaged wheel

Cutting wheel BF 41

Dimension (mm)	Specification	Inches	Application	Linde article code
115x1,0x22,2	A 60 S-BF41	4 1/2x3/64x7/8	Steel / INOX
