Purchase Price Allocation (PPA)

Impact in 9M 2011: € 181 m (9M 2010: € 191 m)

Expected impact FY 2011: ~ € 250 m (upper end of guidance due to enforced one-brand strategy)

Background:

- The difference between the purchase cost of BOC and related acquisitions in Asia and their net asset value has been allocated to assets on the Linde balance sheet (for BOC, see Linde 2007 annual report, p. 99)
- The revaluation of these assets leads to additional depreciation and amortisation charges according to the useful life of the assets
- Goodwill is not amortised but subject to a yearly impairment test
- Depreciation & Amortisation from PPA is excluded from the calculation of Adjusted EPS

- Development of depreciation and amortisation (in € million)
- Impact in 2010: € 254 million
